

RR5050 GREY REMOVER

FIELD OF APPLICATION

Greyed wooden objects, such as floorings, doors and windows, garden furniture, coverings, enclosures, beams.

INFORMATION

The product lightens and restores greyed and oxidized woods. It removes grey effect from any kind of wood, restoring the original aspect. This product is suitable for softwoods and exotic woods. Its soft-gel formulation allows the application on both horizontal and vertical surfaces.

INSTRUCTIONS

Vigorously shake RR5050. Remove any traces of paint on the surface to be treated. Make sure the wood is dried. Apply with a brush until a layer of a few millimetres thick is formed. Rub with a brush (do not use wire brushes). Leave on for 15 minutes. Rinse with abundant water, cleaning with the brush. Otherwise, rinsing is possible with a high-pressure cleaner (maximum pressure 60 bar). When treating hardwoods, the operation must be repeated to obtain a better brightening result. Depending on the type of wood, the result may be different. After rinsing with water and the complete drying of the wood (about 2-3 days), painting the object will be possible.
