

RY0406 ADHESION PROMOTER

FIELD OF APPLICATION

Metal, glass, plastic, ceramic, stoneware, stone, concrete and terracotta.

INFORMATION

This special product promotes the adhesion over all inert materials with low or absent porosity. RY0406 is the additive, boosting grip and chemical-physical performances of Prestige and Decogrip Solution ranges.

INSTRUCTIONS

Add 4% of RY0406 to the coating. Mix it accurately. Spread it not beyond seven days. After that time, add further 4% of RY0406.

PACKAGING
